“ Cross Heating is our go-to for anything HVAC related. We tell everyone we know to use them! Brad Cross is extremely personable and always makes sure we're happy with the work that's been done. We've utilized their services for ductwork installation, furnace repair, and ductless air conditioning installation. They are always extremely professional and reliable, complete the job on time, and clean up too. I wouldn't go anywhere else! ”

Great experience from the quoting process to the final installation. We had a new furnace, hot water heater, and water softener installed. Each step of the way the guys showed up when they were supposed to and did exactly what they said they would. They left the site spotless. I would recommend them anytime.

Maintain your HVAC system's warranty, receive regular maintenance, and catch small problems before they become expensive problems with the Cross Advantage Program.

Great service from the beginning! The installation was on-time, professional, and clean. We even got a red carpet from the door to the furnace during the installation. Would recommend this company to anyone who is looking for a new air conditioning unit or furnace. We got both and are very satisfied!
